

You need accurate, timely data to make strategic decisions that will move your business forward. Unfortunately, running a business with disconnected systems, warehouses, and teams results in delays, duplicate data entry, greater risk of errors, and unnecessary costs.

Here are 10 reasons why Acumatica Distribution Edition—cloud-based manufacturing software—delivers the best value that can transform your business.

*Acumatica
Distribution Edition*

KEY FEATURE	BENEFIT	
1. Intuitive	Easy to learn and use. Connects everyone across your organization with the same information, which encourages collaboration and improves accuracy.	✓
2. Comprehensive Financials and Business Intelligence	Powerful financials with GL, AP and AR; timely, accurate financial and operational reports that are easy to modify and provide insights into your distribution operations. Stay on top of warehouse operations with role-based dashboards for managers, receiving clerks, and shipping personnel.	✓
3. Warehouse Management	Minimize data entry errors with barcode scanning. Automate pick, pack, ship, put-away, and physical inventory transactions from mobile devices.	✓
4. Robust Inventory Management and Pricing	Boost sales with flexible pricing, rules-based discounting, up-sell, inventory allocations, cross-sell, and item substitutions.	✓
5. Purchasing Management	Know what to buy, how much, and when with replenishment suggestions and valuable insights into supply and demand. Link sales orders with purchase orders and allocate received items to orders.	✓
6. Optimize Inventory Levels	Gain insights into turns and carrying costs with kitting, lot and serial tracking, matrix items, physical inventory counts, flexible units of measure, and replenishment.	✓
7. Streamlined Order Management	Create quotes, enter orders, or synchronize orders from commerce storefronts or connected EDI applications with flexible pricing and discounting strategies and flexible order fulfillment options.	✓
8. Integrated Workflow and Multi-Level Approval	Create approval rules for order types, vendor information, order amount, and other order-specific information. Automate order processing and eliminate unnecessary steps. Configure order status, status changes, actions, notifications, and alerts to trigger automatically during order processing.	✓
9. Customer Relationship Management	Real-time data on all customer activities, including customer contacts, leads, opportunities, quotes, orders, invoices, payments, support cases, and service calls.	✓
10. Modern Software	Cloud-based technology that keeps everyone on the same page with reporting, dashboards, and data analytics available on phones, tablets, and PCs—anywhere, anytime.	✓

Embedded Warehouse Management System with Barcoding

Reduce errors and improve customer satisfaction with native barcode printing and scanning. Validate items processes for order fulfillment, put-away, physical inventory, and other inventory transactions. Ruggedized scanners or mobile devices support popular linear, 2D, and GS1 barcode formats.

About Acumatica Distribution Edition

Acumatica Distribution Edition offers unparalleled depth with a suite of financial applications to manage accounting tasks alongside an extensive suite of distribution applications for sales, inventory, purchasing, and warehouse management. With unique midmarket distribution features the company helps distributors automate processes, reduce costs, and improve both data visibility and warehouse efficiency. Acumatica brings a wide range of other benefits with native document management, customer relationship management (CRM), project accounting, commerce, point of sale, expense management, payroll, and field service. The full Distribution Edition allows your team to manage the entire business with powerful insights from configurable inquiries, role-based dashboards, and real-time analytics.
